Promise me forever  
starting with today.  
Watch with me  
while time slips away.

*Interlude*

Promise me the universe,  
every single part,  
each grain of sand  
and every shining star.

*Interlude*

Promise me the magic  
of life's great mysteries,  
things unknown  
and things no one can see.

*Interlude*

*Instrumental [verse + interlude]*

Promise me just one thing  
even greater than all these  
Your love --  
It's all I'll ever need.

*Interlude*

*[End on D]*
